

GRABER®

Cellular and Pleated Shades

A BEAUTIFUL SOLUTION FOR EVERY STYLE

Shades with Modern Depth & Design

Graber CrystalPleat® Cellular and Pleated Shades offer modern, streamlined style that’s anything but flat. Whether your interior design is coastal or cottage or contemporary—or anything in between—you’ll find a beautiful shade to help create your ideal space.

Made in an efficient honeycomb cell structure, Graber Cellular Shades trap air for energy-saving insulation and lower energy bills all year.

Graber Pleated Shades come in subtle textures and contemporary patterns. EvenPleat® is perfect for any pleat size. It reinforces the pleats so they stay crisp and even, for a look that lasts.

With crisp lines in premium fabrics, cellular and pleated shades add a touch of grace, a strike of color, and a dash of dimension to any décor.

WHERE STYLE AND
ENERGY SAVINGS MEET

Cellular Shades

Graber CrystalPleat Cellular Shades exemplify the “form follows function” school of design thought. Their signature honeycomb-shaped cell structure is both visually interesting and beautifully practical.

The honeycomb cells are designed to elegantly prevent heat loss and keep the cold air from leaking through your windows. This insulating power gives both your air conditioner and heater a helping hand, lowering your energy bills in every season.

Crafted from premium spunlace and woven fabrics, our soft, durable cellular shades effortlessly fit any décor—traditional to industrial, farmhouse or mid-century modern—to create a space you’ll love for years.

A Cell Size for Every Window

Cellular shades are available in four cell sizes. Each size creates a specific look for your window and relates to the shade's insulation value.

Which size is best for your room?

6

$\frac{3}{8}$ " SINGLE CELL
Sleek profile for smaller windows
(available in select fabrics only)

$\frac{1}{2}$ " DOUBLE CELL
Double-cell construction provides
maximum energy savings

3/4" SINGLE CELL

Large cell size creates a clean, proportional look for medium to large windows

1 1/4" SINGLE CELL

Extra large cell size proportioned for oversized windows for a clean look with fewer pleats

The Perfect Mix of Sunlight & Privacy

Graber Cellular Shades are made from fabrics in one of four opacities. The fabric opacity affects the amount of sunlight and privacy in your room.

Each fabric in the sheer, semi-sheer, light-filtering, and blackout opacities creates different lighting effects in your room.

Fabric colors may impact your shade opacity. For example, if you select a dark gray light-filtering fabric, it will block more light than a white light-filtering fabric.

Ask your Graber Window Treatment Expert about how you can try a sample of your fabric and opacity in your home.

Sheer

Allows the most sunlight and the least privacy

Semi-Sheer

Allows moderate sunlight and a little privacy

Light Filtering
Blocks some sunlight and offers some privacy

Blackout
Blocks all sunlight and offers complete privacy

Door: ¾" Single Cell Slide-View Cellular Shade: **Prestige, Beige Influence 0590** with 5½" Cornice
Windows: ¾" Single Cell Cellular Shades with Cordless Lift, Three-on-One Headrail: **Prestige, Beige Influence 0590** with 5½" Cornice with Keystone

The Coordinated, Vertical Solution

With expansive, vertical pleats designed for widths up to 192", Graber Slide-View™ Vertical Cellular Shades bring softness, color, and energy efficiency to your wide windows and patio doors.

Coordinate with horizontal cellular shades in the rest of your home for an effortlessly harmonious look.

STACKING OPTIONS

Shades open from the left, center, or right, allowing you to select your shade stack in any configuration.

The Elements of a Well-Dressed Window

Superb design relies on the careful selection of fine pieces. Layered together, our extensive collections give you endless possibilities in any style.

1. $\frac{3}{4}$ " single cell cellular shade in a soft neutral coordinates and insulates your room. Shown in Couture, Noble Pewter 0133.
2. Graber Drapery frames the window and adds striking color and pattern in a contemporary style.
3. Wood cornice covers headrails and creates strong lines. Shown in $7\frac{1}{2}$ " Noble Cornice with Keystone: Snowflake 1603.

Pleated Shades

No matter what style you love—modern, transitional, rustic, or eclectic—Graber Pleated Shades offer beautiful colors, textures, and patterns that give just the right dimension to your interior design.

PLEAT SIZES

Available in 1" and 2" pleats, Graber Pleated Shades complement windows large, small, and in between. For a freshly pressed look that lasts for years, select the EvenPleat option. Back ladder support ensures pleat performance and increases shade longevity.

Light Control, Illuminated

Graber Pleated Shades are made from sheer and light-filtering fabrics.

But that’s not all. Pleated shades have an additional light control option. Add a privacy or blackout liner to further customize your light control and privacy.

Which combination of fabric opacity and liner is best for your space?

PLEATED OPACITY OPTIONS

Sheer

Allows the most sunlight and the least privacy

Light Filtering

Blocks some sunlight and offers some privacy

PLEATED LINER OPTIONS

Privacy Liner

Add a privacy liner to a sheer or light-filtering shade and you will enjoy:

- Increased light control
- Increased privacy

At night, objects in your home will appear as silhouettes from the outside.

Blackout Liner

Add a blackout liner to any shade and you will enjoy:

- Blocked light
- Complete privacy

At night, objects in your home will not be seen from the outside.

Flexible Solutions

Are you designing for a sunny, insulated living room during the day and a cozy, protected space at night? Or perhaps you prefer to adjust your shade as the light changes throughout the day. Consider our flexible shade solutions for your home.

Sun Up/Sun Down
Combine two cellular shades or two pleated shades. Choose different opacities for just-right light and privacy all day and night.

Perfect-Vue™ Shades
Combine a pleated fabric on top with a cellular fabric on the bottom for maximum flexibility and superior performance.

Bottom Up/Top Down
Let in natural light and maintain privacy by lowering the shade from the top. Or, lift the shade completely for a full view to the outside.

Top Down-Only
Lower shade from the top with continuous-loop lift. Ideal for rooms where privacy is essential, but natural light is desired (cellular shades only).

Specialty Shapes

Cover your arch, bay, corner, and angled windows with Graber Cellular or Pleated Shades. For specialty shapes like circles and hexagons, consider Graber Cellular Shades.

Arches
Shade covers perfect arches, non-perfect arches, quarter-circle, and full-circle windows.

Arch Over Standard
A standard corded shade and arch are combined to eliminate light gaps between the arch and shade; arch is stationary and shade is operable. Available with cellular shades only.

Skytrack™ Skylights
Cover your hardest-to-reach windows; room-darkening side channels will eliminate light gaps.

Lift with Ease

Small moments of beauty and convenience throughout each day help create a beautiful, comfortable life. We designed our cellular and pleated shades with those everyday moments in mind.

With a variety of options, you'll find the control type that brings the most ease to your daily routine.

CELLULAR & PLEATED CONTROL OPTIONS

Motorized Lift
Raise and lower shades individually or as a group with the touch of a button or by integrating with a home automation system. Simple, easy to use, and ideal for homes with children and pets.

Cordless Lift
Cord free is best for children and pets. A shade without cords also presents a clean, streamlined appearance.

Continuous-Loop Lift
Smooth operation with a consistent cord length which makes raising shades easier than ever; consider for large, heavy shades.

Cord Lift
Raise and lower using a free-hanging cord; it's a standard, time-tested solution.

Finish with Top Treatments

Give your room a finished, polished look with top treatments that cover your headrails. Showcase your personal style with plush, fabric-wrapped cornices or add natural character with cornices and valances made from handcrafted 100% North American hardwood and available in custom colors.

Safety Solutions

You have high standards for the products you use to decorate your home. You want them to be strong, durable, and above all, safe for your family.

At Graber, we've been handcrafting window treatments for more than 80 years. And they're in our homes, too. It's why we take special care creating window treatments that are both safe and beautiful. Our cordless and motorized control options have been certified as Best for Kids by an independent lab. Satisfy your discerning design sensibility and revel in peace of mind with Graber custom window treatments.

Perfect-View Shades with Cordless Lift: 2" Pleated Shades: **Serendipity, Heavenly 5800** (top) and ½" Double Cell Blackout Cellular Shades: **Sanctuary, Pink Rose 1465** (bottom) with 4½" Cornice with Keystone
